SEASON OF CREATION

September 1 - October 4

With pandemics and natural disasters in recent years, our connectedness has become even more apparent revealing how our structures and demands on the earth's resources disproportionately impact vulnerable communities. Yet amidst this suffering we have experienced moments of hope: carbon emissions dropping, new neighborhood connections formed, recognition of using only what we truly need.

Let us take one *Laudato Si'* Goal each day as a starting point this Season of Creation (and every day thereafter!) as we pray and work towards equitable, healthy, safe communities for all and not just a temporary, but a lasting rest to our Earth.

The Season of Creation

From Sept 1 (Day of Prayer for Creation) to Oct 4 (Feast of St. Francis) each year, faith communities from around the world take time to slow down, focus on what matters and restore relationships with each other and with all creation.

Laudato Si' Goals

To mark the **Special Fifth Anniversary Year of Pope Francis's encyclical *Laudato Si'*** (May 24, 2020 - May 24, 2021), the Vatican outlined seven themes to respond to God's call to justice and peace for the earth and for each other.
